

Dhanush eSub Center / Wellness Center Solution

eSub Center is the peripheral outpost and the first hope of health care for the remote population. It fulfills the basic primary and quality health care needs of the families surviving in difficult circumstances in the remote areas.

Dhanush eSubcenter solution has the features for creating the Electronic Health Record, Tele Consultation, Integration with Drug Vending Machine, NCD Screening and Outreach camps.

Benefits of eSubcenter Solution

- ▶ Prevent the disease burden by reducing the consultation time and improve the health index
- ▶ Averting the epidemics and vector borne diseases by quick and effective local interventions by fortified Sub Centers
- ▶ Improved utilization of Primary Health Care Services
- ▶ Fully transparent, eliminates misuse of resources with Digitally Trackable Solutions

Dhanush is currently establishing 40 eSubCenters covering a population of 5 Lakhs, in tribal region in the State of Andhra Pradesh by leveraging various Innovative Technologies.

Services Facilitated

- Consultation through Telemedicine
- Pharmacy dispensing through Automatic Drug Vending Machine
- Patient Referral to Secondary or Tertiary Hospitals
- Capture the detailed Electronic Medical Record (EMR) of the patient
